## ONLINE TRAINING PROGRAMME ON MINING SECTOR

The **COVID19** pandemic has forced us to do things differently in almost every aspect of our lives. Training and capacity building, which is essential for continuous learning and innovation, will also have to change. We at the **International Forum for Environment, Sustainability and Technology (iFOREST)** have developed a new innovative methodology to conduct an online training programme on

### **Environmental Impact Assessment (EIA) of Mining Project**

(28th September to 1st October 2020)

#### **The core of our innovative method is:**

- **Andragogy:** Our training is designed for adult e-Learning. We use a mix of online lecture, assignments, discussion and demonstration to transfer knowledge and skills effectively.
- **Learning on the job:** Our training programmes are customised so that a participant needs to devote only 3 hours a day on training (3 hours lecture & class exercise and home assignment). This allows the participant to manage training and job together.
- **Individual learning and assessment:** The training programmes are tailored for a small group (25-30 participants) to enable personalized learning and assessment.
- **Online demonstrations and videos:** We enhance learning through online demonstrations and customized videos.

#### **Course details:**

**TRAINING FEES: ₹4,500** per participant  
for students and NGOs ₹ 2500

#### **Date:**

28th September to 1st October 2020

#### **Timing of training:**

9 am to 12.30 pm, 3-hour lecture & class exercise + Home assignment

**The course is customized for the mining sector and will include the following topics:**

### **Course Highlights**

#### **Environmental Impact Assessment of a Mining project**

- EIA and Environmental Clearance (EC) Process
- Acts and Rules applicable for obtaining EC
- Development of Terms of Reference (ToRs)
- Methodology for data collection, validation and interpretation for various functional areas
- Tools and techniques for impact characterization and significance
- Cumulative Impact and assimilative capacity
- Development of Environment management program (EMP) and cost estimation for mitigation measures
- Best Practices in mine Management (Air, Water, Waste, and Noise, ground vibration, mine reclamation, R&R, etc.)
- Learnings from best performing mine (coal/non-coal)
- SDG goals and its integration in project planning and operation
- Biodiversity assessment and conservation plans
- Cost-benefit analysis
- EIA and EMP review

**The entire training programme will be delivered and moderated by the subject matter experts, expert appraisal committee, CPCB, IBM, DGMS and SPCB officials, etc**
