TRAINING PROGRAMME ON

LAND ACQUISITION, REHABILITATION AND RESETTLEMENT

(24th to 28th November 2020)

ONLINE TRAINING PROGRAMME ON LAND ACQUISITION, REHABILITATION AND RESETTLEMENT

The **COVID19** pandemic has forced us to do things differently in almost every aspect of our lives. Training and capacity building, which is essential for continuous learning and innovation, will also have to change.

We at the **International Forum for Environment, Sustainability and Technology (iFOREST)** in collaboration with **Sustainability Innovations and Advisories (SIA) Private Limited** (our knowledge partner) have developed a new innovative methodology to conduct an online training programme on

Land Acquisition, Rehabilitation and Resettlement (24th to 28th November 2020)

The five days training programme aimed at giving practical exposure to participants on various provisions Central Act (Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013) and State Rule. The objective of this programme is to build a trained professional who can conduct and review Social Impact Assessment reports.

The programme will also impart understanding of the issues and challenges in land acquisition, enhance skills in socio-economic surveys, consultations, data collection, planning land acquisition, estimation of compensation, development entitlement, estimation of rehabilitation package.

The core of our innovative on-line method of training is:

Andragogy: Our training is designed for adult e-Learning. We use a mix of online lecture, assignments, discussion and demonstration to transfer knowledge and skills effectively.

Learning on the job: Our training programmes are customised so that a participant needs to devote only 3 hours a day on training (3 hours lecture & class exercise and home assignment). This allows the participant to manage training and job together.

Individual learning and assessment: The training programmes are tailored for a small group (25-30 participants) to enable personalized learning and assessment.

Online demonstrations and videos: We enhance learning through online demonstrations and customized videos.

Training Fees:

₹2,500

per participant students,
academia and NGOs

₹4,500

per participant for industry,
regulators, consultants, government

Date: 24th to 28th November 2020

Timing of training: 9 am to 12.30 pm, 3-hour lecture & class exercise + Home assignment

Who can apply: Revenue officials, officials from industries, developers, public sector undertakings, consultants, academics, students, non-government organizations, civil society groups, community-based organizations and media

The course is customized for the area development (mining, industrial, urban and township project, energy sector) and linear projects (road & highway, transmission line, pipeline, road and canal and railway line) and will include the following topics:

Course Highlights

- Land rights and governance
- Case studies - How land conflicts delay development projects
- Understanding of various provisions of LARR Act
SIA- Overview, how to develop terms of reference, preparation of land acquisition plans, tools and mechanisms to conduct socio-economic survey, filling socio-economic survey questionnaires, collation and interpretation of data, and categorization of impact and determining its significance.
